Exhibition Text

The *Tree of Gratitude* is a tree that represents that we should always be thankful. It was created to give thanks; it's a tree to remind people to be thankful of not only the things they have, but of life itself. The *Tree of Gratitude* was inspired by Gustav Klimt and his artwork, especially *The Tree of Life, Stoclet Frieze*. The *Tree of Gratitude* can serve as a pedestal for anyone who comes to it, and it can be a reminder to always give thanks.
